

471-000-507 Nebraska Medicaid Practitioner Fee Schedule for Durable Medical Equipment, Medical Supplies, Orthotics and Prosthetics

Note: Prior to using information provided in this fee schedule, review the following on-line tools for the latest in durable medical equipment policy and billing guidance.

- 471 NAC, Chapter 7 at <http://www.dhhs.ne.gov/reg/t471.htm>
- Provider Bulletins at <http://www.dhhs.ne.gov/med/pb/>

This fee schedule does not address the various coverage limitations routinely applied by Nebraska Medicaid before final payment is determined (e.g., beneficiary and provider eligibility, benefit limits, billing instructions, frequency of services, third party liability, age restrictions, prior authorization, co-payments/coinsurance where applicable, etc.). Procedure codes and/or fee schedule amounts listed do not guarantee payment, coverage or amount allowed.

Although every effort is made to ensure the accuracy of this information, discrepancies and time lag may occur. All information may be changed or updated at any time to correct a discrepancy and/or error. The reimbursement rates reflected in this fee schedule are in effect as of the date of this report. The reimbursement rate made on a claim will depend on the date of service, since reimbursement rates are date of service effective.

For client eligibility or claims-status questions, call the Inquiry Line, 1-877-255-3092.

For DME policy issues, call 402-471-9381 or email the DME program specialist, DHHS.DME@nebraska.gov.

To Determine the Medicaid Allowable:

1. IDENTIFY THE CODE. First, identify the correct code for the DME item or service you are dispensing. Refer to the latest HCPCS Level II Expert book for code descriptions. Every DME provider should have this guide. In addition, the following website can be a useful tool for identifying the HCPCS code for a particular item: <https://www.dmeptac.com/dmecsapp/do/search> If a type of item has a specific HCPCS code assigned, the provider must use that specific code when billing and not a "miscellaneous" code.
2. FIND THE CODE/MODIFIER COMBINATION. Review the Procedure Code Modifiers (next page) and select the modifier that is correct for the item being billed. Click on the "binoculars" search tool located in the left chimney, and search for the code. Generally, if the code or code/modifier combination is not listed, it is not covered. If in doubt, email the program specialist (above.)
3. LOCATE THE MEDICAID ALLOWABLE for the procedure code and modifier combination of the item dispensed. If "RNE" is listed, see Step #5 for special pricing.
4. PAYMENT IS THE LOWER OF THE MEDICAID ALLOWABLE OR THE PROVIDER'S SUBMITTED CHARGE. Provider's submitted charge must reflect its charge to the general public. Provider must not bill Medicaid more than it charges the general public.
5. SPECIAL PRICING. Certain procedure codes will not have a unit value. RNE means "rate not established." When submitting the claim, provider must include a detailed physician's order for the item, clear description of the item dispensed such as brand/model, and an actual cost invoice. Medicaid pays RNE codes at a reasonable rate as determined by Medicaid and based on the service. An actual cost invoice is the supplier's invoice that the

provider actually paid, and includes any discounts and rebates to the provider. In addition, any "miscellaneous" code billed at \$500 or more requires an approved prior authorization request. See 471 NAC 7-008.

6. **PRIOR AUTHORIZATION:** If an item requires a prior authorization request, submit on Form MS-77 found in the 471 NAC Appendixes. For Unit Price working purposes, if the provider does not have an actual cost invoice at the time of the prior authorization request, submit the Manufacturer's Suggested Retail Price (MSRP). (Clearly state if the figure submitted is an actual cost invoice or MSRP.) If the prior auth request is approved and provider dispenses the equipment, with the claim the provider must submit a clear description of each line item and its actual cost invoice, including any discounts and rebates. Generally, Medicaid pays 130 percent of the actual cost invoice (not an MSRP or quotation), up to a reasonable amount, not to exceed provider's stated Unit Price on the MS-77 or provider's charge to other customers.

Procedure Code Modifiers

Use the following procedure code modifiers with the procedure code, when applicable. Note: Most disposable DME items do not have any modifiers. Durable DME items may have modifiers. Generally, only one modifier can be used per procedure code. (Exception: oxygen equipment and content have flow rate modifiers for payment purposes.)

Modifiers for Durable Medical Equipment -

- NU - New durable medical equipment purchase. Some items that always require a new medical evaluation, such as wheelchairs, will always take NU, even if a replacement.
- RR - Rental. Use when DME is rented for a full one month period - see 471 NAC 7-010.09D. A unit is one month.
- KR - Daily rental. Use when DME is rented for less than a one month period - see 471 NAC 7-010.09D. A unit is one day.
- UE - Used durable medical equipment purchase. 75% of purchase allowable.
- MS - Six month maintenance/servicing fee for reasonable and necessary parts/labor not covered under any warranty. 6 month maintenance = 1 month rental amount. (Use for DME exempt from rental/purchase option after 12 months rental was paid. (See 471 NAC 7-010.09B.) For MS supplies, use RB. Clearly state: "Client-owned equipment.")
- LL - Conversion of DME rental to purchase. (When using LL modifier, list the initial date of delivery in Field 19, CMS-1500 claim form and bill initial purchase price.)
- RA - Replacement of DME item owned by the client. (Think of RA as a replacement for a stand-alone piece of equipment, such as nebulizer, or a wheelchair.)
- RB - A like part, in conjunction with a repair to DME item owned by the client. (Think of a nebulizer mask or a wheelchair wheel.) RB is a like, or equivalent part, not an upgrade part. On the claim, clearly ascribe whether the DME item is "Client-owned equipment."
- KA - Add on option/accessory, or upgrade option/accessory for a wheelchair

Modifiers for Oxygen Equipment -

- QE - Prescribed amount of oxygen is less than 1 liters per minute (LPM)
- QF - Prescribed amount of oxygen exceeds 4 LPM and portable oxygen is prescribed
- QG - Prescribed amount of oxygen is greater than 4 liters per minute (LPM)
- RR - Prescribed amount of oxygen is between 1 and 4 liters per minute (LPM)

Modifier for Nutritional Supplements -

- BO - Orally administered nutrition

Other billing tips based on recent feedback from claims processors and providers -

The **Comments box** with the code will add useful billing tips, as Claims Processing and provider feedback indicate the need. If an instruction is not in the comments box, don't assume it doesn't exist. Consult the regulation, provider bulletins, or email the program specialist.

When equipment requires prior authorization, but a **provider dispenses equipment before receiving approval**, they do so at own risk. If Medicaid denies the prior auth request, or if client is no longer able to receive and use the equipment before a prior auth is reviewed and approved, Medicaid cannot pay a claim or change the prior auth request to a rental. To be sure of payment, wait until you receive an approved prior auth in the mail before dispensing equipment.

Repairs (RB modifier) to client-owned, medically necessary equipment covered in 471 NAC Chapter 7 do not require prior authorization if repairs (all lines/claims) are billed at a total of \$500 or less. If the HCPCS code for a repair item does not have a set reimbursement rate (if listed as RNE – rate not established), then the provider must still submit a detailed description and an actual cost invoice with the claim. See Provider Bulletin # 10-17.

Nutritional supplements require physician's order of medical necessity with supporting diagnosis code(s), the number of calories per day required of the supplement, and the duration (expiration date) of the order. A Medicaid nutritional supplement "unit" is 100 calories (not grams, ounces, milliliters or cans – a frequent denial reason.) Do not use the BO (oral fed) modifier if client is tube-fed. For infants/children eligible for **WIC**, Medicaid covers the difference between the calories of nutritional supplement dispensed by WIC to the client and the calories ordered by the physician.

When billing a claim for a **miscellaneous code**, include a detailed item description and an actual cost invoice. To pay, the Medicaid claims processor must be able to determine what the "miscellaneous" item is, and what it cost the provider. Also, a common reason for claim denial has been billing a miscellaneous code when the type of item has a specific code and allowance. Miscellaneous codes may not be used to claim an item that Medicaid doesn't cover, or to exceed the Medicaid allowable for a type of item with a specific code and allowance.

When submitting a claim, include **physician's license number** in Form CMS-1500 Box 17a.

When billing an item where a unit is for **one limb** (leg, foot, etc.) state whether LT (left) or RT (right). LT or RT goes in the next open modifier field on the claim form. Examples include compression stockings, liners, orthotics and prosthetics.
